### **Contract signing secures radiology future**

Healthcare Imaging Services has signed a new contract to continue to provide radiology services to the Wimmera Health Care Group.

Wimmera Health Care Group Chief Executive Chris Scott said the new contract has secured the services of Healthcare Imaging Services for a further five to 10-year period.

“Healthcare Imaging Services has provided radiology services for the Wimmera Health Care Group for more than five years already,” Mr Scott said.

“Key benefits in the next 12 to 18 months of securing their services will be the installation of a magnetic resonance imaging machine, known as an MRI machine, servicing the Wimmera region.

“We are very pleased to officially announce the two organisations will continue to work together to provide an effective and efficient radiology service to the Wimmera.”

Healthcare Imaging Services State Manager Dean Lewsam said he was pleased to continue the partnership with regional health service provider, the Wimmera Health Care Group, and looked forward to the establishment of the new MRI for the Wimmera region.

“The signing of the contract shows a commitment from both Healthcare Imaging Services and the Wimmera Health Care Group to continue providing a first-class radiology service to the Wimmera,” Mr Lewsam said.

“We are very pleased to continue the partnership with Wimmera Health Care Group.”
